

SYMBOL MOUNTAIN ■ REFRESHED MASTER PRODUCTION FREEZE CHECKLIST

Date: 2026-04-28

Scope: Symbol Mountain scenes 01-04 (Modak, Pond, Symbol, Sacred Assembly)

Use: Final manual QA before zone freeze

0) Baseline Used

- `SYMBOL\_MOUNTAIN\_MASTER\_FREEZE\_CHECKLIST.md`
- `SYMBOL\_MOUNTAIN\_PRODUCTION\_FREEZE\_CHECKLIST.md`
- `ABOUT\_ME\_HUT\_FREEZE\_CHECKLIST\_REFRESHED.md` (structure standard: blockers + tab/reload/voice/idle clarity)

1) MASTER GATE (ALL SCENES, MUST PASS)

- [] Opening modal appears exactly once on fresh scene start.
- [] Opening modal does not replay after tab-return resume.
- [] Completion modal appears only on actual win condition.
- [] Continue button routes correctly: `modak -> pond -> symbol -> final-scene -> zone completion path`.
- [] Replay fully resets that scene state.
- [] Home button confirmation flow works from intro, mid-game, and completion.
- [] Audio toggle OFF immediately stops Web Speech + VO + SFX.
- [] Audio toggle preference persists across reload and scene transitions.
- [] Idle hints run in 3-step ladder and clear on interaction.
- [] Tab hide/show pauses timers and resumes cleanly after 3-2-1 countdown.
- [] No duplicate VO on tab return.
- [] No duplicate celebratory timers/animations after tab return.
- [] Mid-phase reload restores safe state (no ghost overlays/cards).
- [] No blocking console errors.
- [] No critical missing assets in Network.

2) LOCKED COPY CHECKS (OPENING + COMPLETION)

Scene 01 `modak`

Opening (from `openingModals.js`):

- [] Title: `Share the Modaks`
- [] Description: `Mooshika is hiding nearby. Find him and share the sweet modaks.`

Completion (from `completionModals.js`):

- [] Title: `You Shared the Modaks!`
- [] Subtitle: `You found Mooshika and shared the sweet modaks. Wonderful work, little friend.`

Scene 02 `pond`

Opening:

- [] Title: `Wake the Lotus`
- [] Description: `The pond rests quietly. A golden lotus is waiting to bloom.`

Completion:

- [] Title: `The Lotus Has Bloomed!`
- [] Subtitle: `The golden petals opened with your help.`

Scene 03 `symbol`

Opening:

- [] Title: `Play the Notes`
- [] Description: `The mountain is listening. Follow the rhythm and see what awakens.`

Completion:

- [] Title: `The Mountain Has Awakened!`
- [] Subtitle: `The rhythm echoed and the symbols stirred.`

Scene 04 `final-scene`

Opening:

- [] Title: `Shine Together`

- [] Description: `All the symbols are ready. Place them gently and watch them glow.`

Completion:

- [] Title: `The Symbols Shine as One!`

- [] Subtitle: `The mountain glows brighter because of you.`

3) SYMBOL AUTOREVEAL CONTENT (LOCKED)

Scene 01 `NewModakSceneV7`

- [] Mooshika -> `I can focus.`

- [] Modak -> `I share with joy.`

- [] Big Belly -> `I feel safe inside.`

Scene 02 `PondSceneSimplifiedV4`

- [] Lotus -> `I bloom in the mud!`

- [] Trunk -> `Strong and gentle!`

Scene 03 `SymbolMountainSceneV3`

- [] Eyes -> `I notice the good.`

- [] Ears -> `I listen with care.`

- [] Tusk -> `I finish what I start.`

4) SIDEBAR POPUP CONTENT (LOCKED)

Source: `src/zones/symbol-mountain/shared/components/SymbolSidebar.jsx`

- [] Modak: `I share with joy.`

- [] Mooshika: `I can focus.`

- [] Big Belly: `I feel safe inside.`

- [] Lotus: `I stay calm and kind.`

- [] Trunk: `I am strong and gentle.`

- [] Eyes: `I notice the good.`

- [] Ears: `I listen with care.`

- [] Tusk: `I finish what I start.`

- [] Locked symbols are not interactive.

- [] Popup close (tap outside) restores active phase without state loss.

5) SCENE FLOW CHECKLIST

Scene 01 ■ Modak

- [] Phase order: `mooshika\_search -> modaks\_unlocked -> rock\_visible/feeding -> transformed -> complete`

- [] Mooshika discovery triggers reveal card and sidebar unlock.

- [] Collect phase supports 3 modaks correctly.

- [] Feed phase supports drag/drop to Ganesha correctly.

- [] Belly reveal triggers final reveal card.

- [] Scene completion celebration triggers once.

Idle/Reload/Tab:

- [] Idle ladder visible at ~10s/~18s/~26s.

- [] Reload safe in each major phase.

- [] Tab return resumes with countdown and no duplicate VO.

Scene 02 ■ Pond

- [] Lotuses bloom sequence works (hold/bloom behavior active as implemented).

- [] Golden lotus step triggers correctly.

- [] Trunk/elephant reveal step triggers correctly.

- [] Lotus + Trunk reveal cards fly to sidebar correctly.

- [] Completion celebration triggers once.

Idle/Reload/Tab:

- [] Idle cues target lotus/golden/elephant correctly by phase.

- [] Reload preserves progression safely.
- [] Tab return resumes with no duplicated prompt or timers.

Scene 03 ■ Symbol

- [] Order: Eyes game -> Ears rhythm -> Tusk notes.
- [] Each subgame unlocks matching symbol card and sidebar icon.
- [] Ears rhythm progression/state persistence works.
- [] Tusk note progression/state persistence works.
- [] Final celebration triggers once and continues to final-scene.

Idle/Reload/Tab:

- [] Idle ladder points to active target by sub-phase.
- [] Mid-subgame reload does not corrupt progression.
- [] Tab return does not replay old VO chain repeatedly.

Scene 04 ■ Sacred Assembly

- [] 8 unique symbols queue without duplication/skips.
- [] Card lifecycle works: `appear -> flipped -> side -> play -> feedback`.
- [] Correct zone click places symbol and locks zone.
- [] Wrong zone gives soft feedback and resets to idle.
- [] Onboarding VO plays once.
- [] Per-card VO and per-hint VO map correctly.
- [] Final 8/8 celebration + completion modal + zone completion path works.

Idle/Reload/Tab:

- [] 3-level zone hint glow escalates in play phase.
- [] Mid-round reload restores round/placed zones/card state safely.
- [] Tab return resumes card phase correctly with no ghost card.

6) VO/VOICEOVER CHECKLIST

Scene-level script presence

- [] `modak` VO lines present and triggered in phase order (welcome/find/found/focus/collect/share/feed/gratitude/complete).
- [] `final-scene` VO keys present and mapped:
 - [] `openingModalPrompt`
 - [] `cardEyes`, `cardEars`, `cardTrunk`, `cardTusk`, `cardModak`, `cardLotus`, `cardBelly`, `cardMooshika`
 - [] `hintEyes`, `hintEars`, `hintTrunk`, `hintTusk`, `hintModak`, `hintLotus`, `hintBelly`, `hintMooshika`
 - [] `onboardingTapRightPart`
 - [] `correctYes`, `correctThatsRight`, `correctYouFoundIt`, `correctWellDone`
 - [] `wrongTryAgain`
 - [] `finalYouFoundAll`, `finalNowComplete`, `finalAlwaysWithYou`

Audio behavior

- [] VO never overlaps into next phase after skip/rapid tap.
- [] Audio OFF immediately cancels speech.
- [] Audio ON resumes future cues only (no forced replay burst).

7) SFX COVERAGE CHECKLIST (TO FREEZE NOW, TUNE LATER)

Required presence per scene:

- [] `tap` for interactive taps.
- [] `correct/chime` on valid action.
- [] `wrong/oops` on invalid action (especially Sacred Assembly wrong zone).
- [] `sparkle` on reveal/placement moments.
- [] `powerUnlock` for symbol unlock moments.
- [] `celebration` for scene completion.
- [] Optional `whoosh/pop` for card movement and sidebar fly-ins.

Quality checks:

- ☐ No clipping/distortion.
- ☐ No missing audio file 404.
- ☐ SFX respect Audio Toggle OFF.

8) IMAGE AUDIT (JPG/PNG/SVG + CONSISTENCY)

Current Symbol Mountain image counts (repo scan):

- ``.png``: 167
- ``.jpg``: 4
- ``.svg``: 19

Mandatory checks

- ☐ No runtime 404 for required gameplay assets.
- ☐ No accidental load of backup/old asset variants.
- ☐ Sidebar icons use current ``*-new`` set consistently.
- ☐ Popups and reveal cards use same symbol art family.

Ganesha consistency checks (critical)

- ☐ Scene 01, 02, 03 use a consistent Ganesha visual language (coach/character pose and style family agreed).
- ☐ Scene 04 uses one final approved Ganesha assembly style (``GaneshIllustration.jsx`` path).
- ☐ No mixed old/new Ganesha body-part assets in same scene.
- ☐ If intentional style transitions exist, they are documented and approved.

Cleanup watchlist (non-blocking for freeze, but document)

- ☐ Backup assets detected in modak folder (``*.backup_before_download_replace_*.``).
- ☐ Old-image folders exist; ensure they are not imported by active scenes.
- ☐ Duplicate golden lotus variants exist; confirm active file pair only.

9) TAB SWITCH + RELOAD MATRIX (MINIMUM MANUAL RUN)

For each scene (01-04), run all:

- ☐ Early phase tab away/back.
- ☐ Mid gameplay tab away/back.
- ☐ Just before reveal tab away/back.
- ☐ Mid reveal card tab away/back.
- ☐ Mid celebration tab away/back.
- ☐ Hard reload in intro.
- ☐ Hard reload in active gameplay.
- ☐ Hard reload during reveal/card state.
- ☐ Hard reload after completion.

Pass criteria:

- ☐ No stuck modal/overlay.
- ☐ No duplicate countdown/VO.
- ☐ No state rollback to wrong phase.

10) FINAL FREEZE SIGN-OFF

- ☐ Desktop pass complete.
- ☐ Mobile pass complete.
- ☐ Audio ON/OFF pass complete.
- ☐ Tab/reload matrix pass complete.
- ☐ Symbol content (autoreveal + sidebar + modal copy) exact-match pass complete.
- ☐ Asset audit pass complete.
- ☐ SFX coverage pass complete.

Approvals:

- ☐ QA Tester
- ☐ Scene Owner
- ☐ Product Owner

11) SCENE-WISE DETAILED CHECKLIST (A-H FORMAT)

Scene 01 — Modak (`NewModakSceneV7.jsx`)

01A · Phases

- [] `mooshika\_search` starts only after opening modal CTA.
- [] Mooshika find -> collect modaks transition is clean.
- [] Collect phase gates at required count.
- [] Feed phase gates at required feed count.
- [] Belly reveal triggers SymbolAutoReveal.
- [] Completion celebration triggers once.

01B · Tab Switch (Blocker)

- [] Hide stops active VO immediately.
- [] Hide pauses hint timers and clears transient hint visuals.
- [] Show displays 3-2-1 countdown.
- [] Return hint is phase-correct.
- [] No duplicate VO after repeated tab returns.
- [] No duplicate celebration timers after tab returns.

01C · Reload / Continue (Blocker)

- [] Reload intro shows opening modal fresh.
- [] Reload in search/collect/feed is safe and phase-correct.
- [] Reload during reveal card avoids ghost overlay/card duplication.
- [] Reload after completion preserves completion state.

01D · Idle Hints

- [] 3-level cadence works (~10s/~18s/~26s).
- [] Search hint points to mounds.
- [] Collect hint points to modaks.
- [] Feed hint points to drag target.
- [] Hints clear on interaction and phase change.

01E · Content (Opening/Completion + AutoReveal + Sidebar)

- [] Opening title: `Share the Modaks`
- [] Opening description: `Mooshika is hiding nearby. Find him and share the sweet modaks.`
- [] Completion title: `You Shared the Modaks!`
- [] Completion subtitle: `You found Mooshika and shared the sweet modaks. Wonderful work, little friend.`
- [] AutoReveal Mooshika: `I can focus.`
- [] AutoReveal Modak: `I share with joy.`
- [] AutoReveal Big Belly: `I feel safe inside.`
- [] Sidebar popup copy matches locked values.

01F · VO + SFX

- [] Modak VO order is correct: welcome/find/found/focus/collect/share/feed/gratitude/complete.
- [] VO does not overlap on rapid taps/skips.
- [] Audio OFF immediately stops VO and SFX.
- [] SFX present: tap/correct/wrong(if used)/sparkle/powerUnlock/celebration.

01G · Images/Assets

- [] Required assets load: bg, overlay, mound, mooshika, modak, basket, Ganesha feed target.
- [] No runtime 404 for image/audio assets.
- [] No backup/old asset variants used in active imports.
- [] Symbol icons use current `\*-new` family.

01H · UX Polish

- [] Touch/drag targets are child-friendly.
- [] Feedback on correct/wrong actions is clear and gentle.
- [] Mobile layout has no clipping/overlap.

Scene 02 — Pond (`PondSceneSimplifiedV4.jsx`)

02A · Phases

- [] Opening -> lotus progression starts correctly.
- [] Lotus progression gates golden-lotus phase correctly.
- [] Golden-lotus phase gates trunk/elephant phase correctly.
- [] Trunk reveal triggers SymbolAutoReveal.
- [] Completion triggers once and routes correctly.

02B · Tab Switch (Blocker)

- [] Hide stops VO and pauses timers.
- [] Show resumes with countdown and context prompt.
- [] No duplicated prompt chain after repeated returns.
- [] No duplicated celebration timers.

02C · Reload / Continue (Blocker)

- [] Reload intro shows opening modal fresh.
- [] Reload mid-lotus/golden/trunk stages restores safe state.
- [] Reload during reveal card avoids ghost state.
- [] Reload post-completion preserves completed state.

02D · Idle Hints

- [] 3-level cadence works.
- [] Hint targets correct object by phase (lotus -> golden -> trunk/elephant).
- [] Hint clears/resets correctly on interaction.

02E · Content (Opening/Completion + AutoReveal + Sidebar)

- [] Opening title: `Wake the Lotus`
- [] Opening description: `The pond rests quietly. A golden lotus is waiting to bloom.`
- [] Completion title: `The Lotus Has Bloomed!`
- [] Completion subtitle: `The golden petals opened with your help.`
- [] AutoReveal Lotus: `I bloom in the mud!`
- [] AutoReveal Trunk: `Strong and gentle!`
- [] Sidebar popup copy matches locked values.

02F · VO + SFX

- [] Phase VO sequence is consistent and non-overlapping.
- [] Audio OFF cancels speech immediately.
- [] SFX present and balanced for tap/correct/reveal/celebration.

02G · Images/Assets

- [] Required assets load: pond bg/overlays, lotus states, golden lotus, elephant/trunk.
- [] Correct active golden-lotus variant is used.
- [] No 404 in full playthrough.
- [] No old-image leakage from backup folders.

02H · UX Polish

- [] Hold/tap/drag actions are obvious to child users.
- [] Hitboxes are forgiving on mobile.
- [] No text or UI overlap on small screens.

Scene 03 — Symbol (`SymbolMountainSceneV3.jsx`)

03A · Phases

- [] Eyes game -> Ears game -> Tusk game order is strict.
- [] Each subgame unlocks its symbol and reveal card once.
- [] Final celebration triggers once and continues to final scene.

03B · Tab Switch (Blocker)

- [] Hide halts VO and pauses timers.

- [] Show resumes with countdown and correct phase prompt.
- [] No duplicate VO/timers in repeated hide/show cycles.

03C · Reload / Continue (Blocker)

- [] Reload in eyes subgame restores safely.
- [] Reload in ears rhythm restores safely.
- [] Reload in tusk progression restores safely.
- [] Reload during reveal card/completion avoids ghost states.

03D · Idle Hints

- [] 3-level cadence works for each sub-phase.
- [] Hint target is phase-correct (eyes/ears/tusk note).
- [] Hints clear on interaction and reset on phase change.

03E · Content (Opening/Completion + AutoReveal + Sidebar)

- [] Opening title: `Play the Notes`
- [] Opening description: `The mountain is listening. Follow the rhythm and see what awakens.`
- [] Completion title: `The Mountain Has Awakened!`
- [] Completion subtitle: `The rhythm echoed and the symbols stirred.`
- [] AutoReveal Eyes: `I notice the good.`
- [] AutoReveal Ears: `I listen with care.`
- [] AutoReveal Tusk: `I finish what I start.`
- [] Sidebar popup copy matches locked values.

03F · VO + SFX

- [] Eyes/Ears/Tusk guidance VO maps correctly.
- [] No VO overlap under rapid user input.
- [] Audio OFF stops VO+SFX immediately.
- [] SFX present for correct/wrong/reveal/celebration.

03G · Images/Assets

- [] Required assets load: mountain bg, symbol assets, notes/instruments, tusk visual set.
- [] `ear`/`ears` mapping displays correct icon content.
- [] No runtime 404 and no backup asset imports.

03H · UX Polish

- [] Subgame transitions are understandable.
- [] Child always has a clear next action cue.
- [] Mobile layout remains stable.

Scene 04 — Sacred Assembly (`SacredAssemblySceneV8.jsx`)

04A · Phases

- [] 8-symbol queue runs with no duplication/skips.
- [] Card lifecycle works: `appear -> flipped -> side -> play -> feedback`.
- [] Correct placements lock zones.
- [] Wrong placements give soft feedback and recover to idle.
- [] Final 8/8 celebration and completion flow trigger once.

04B · Tab Switch (Blocker)

- [] Hide stops VO and pauses timers.
- [] Show resumes with countdown and contextual prompt.
- [] Mid-card tab return preserves card phase safely.
- [] No ghost card/duplicate timers after return.

04C · Reload / Continue (Blocker)

- [] Reload in mid-round restores round + placed zones + card state.
- [] Reload in completion preserves completion state and actions.
- [] Continue/Replay behave correctly after reload recovery.

04D · Idle Hints

- [] Zone-hint escalation works (`hint` -> `hint-strong` -> `hint-final`).
- [] Hint targets active correct zone only.
- [] Hint resets correctly after interaction/round transition.

04E · Content (Opening/Completion + Card/Hint VO Script)

- [] Opening title: `Shine Together`
- [] Opening description: `All the symbols are ready. Place them gently and watch them glow.`
- [] Completion title: `The Symbols Shine as One!`
- [] Completion subtitle: `The mountain glows brighter because of you.`
- [] Card VO keys mapped: `cardEyes`, `cardEars`, `cardTrunk`, `cardTusk`, `cardModak`, `cardLotus`, `cardBelly`, `cardMooshika`.
- [] Hint VO keys mapped: `hintEyes`, `hintEars`, `hintTrunk`, `hintTusk`, `hintModak`, `hintLotus`, `hintBelly`, `hintMooshika`.
- [] Final VO chain mapped: `finalYouFoundAll`, `finalNowComplete`, `finalAlwaysWithYou`.

04F · VO + SFX

- [] Onboarding VO plays once.
- [] Card VO timing matches card phase.
- [] Correct/wrong VO feedback triggers in right moments only.
- [] Audio OFF immediately silences all speech and SFX.
- [] SFX present for tap/correct/wrong/sparkle/power/celebration.

04G · Images/Assets

- [] Required assets load: final background, Ganesha illustration layers, symbol icons, celebration effects.
- [] Final scene uses approved `GaneshIllustration.jsx` style consistently.
- [] No mixed old/new Ganesha part assets in active path.
- [] No image/audio 404 in full run.

04H · UX Polish

- [] Card + canvas layout is readable on desktop/mobile.
- [] Progress (`x/8`) remains visible and accurate.
- [] Final celebration and completion CTA are clear and child-friendly.

12) DETAILED GAME MECHANICS + VO TRIGGER MAP (CODE-ALIGNED)

Use this section for final manual freeze validation of full interaction logic.

Scene 01 ? Modak (`NewModakSceneV7.jsx`)

12.01A ? Full Mechanics (exact flow)

- [] Opening modal CTA starts scene.
- [] Phase `mooshika\_search` shows exactly 5 mounds.
- [] Wrong mound tap: wrong SFX + mound shake + small sparkle only; no lock/fade of mound.
- [] Correct mound tap: Mooshika reveal + sparkle + phase changes to `mooshika\_found`.
- [] After reveal delay, SymbolAutoReveal opens for `mooshika`.
- [] Collect phase: exactly 3 modaks are collectible.
- [] Each modak tap adds one to basket and updates count.
- [] On collecting all 3, SymbolAutoReveal opens for `modak`.
- [] Feed phase: drag modak from basket to Ganesha target.
- [] Wrong/invalid drop: no feed increment.
- [] Correct drop: feed count increments; at 3 feeds -> transformed phase.
- [] Belly SymbolAutoReveal opens for `belly`.
- [] Final completion fireworks + completion modal trigger once.

12.01B ? SymbolAutoReveal Card Content + VO

- [] Mooshika card content: `Mooshika` / `I can focus.`

- [] Modak card content: `Modak` / `I share with joy.`
- [] Belly card content: `Big Belly` / `I feel safe inside.`
- [] Card VO on reveal:
 - [] Mooshika -> `focusPower`
 - [] Modak -> `sharingPower`
 - [] Belly -> `gratitudePower`
- [] After card tap/complete, symbol flies to correct sidebar target.

12.01C ? VO Trigger Map (phase-by-phase)

- [] Scene enter: `welcome`
- [] Search instruction: `findMooshika`
- [] Search idle (L2): `findMooshikaIdle`
- [] Correct mound success: `mooshikaFound`
- [] Collect start: `collectStart`
- [] Collect idle (L2): `collectIdleHint`
- [] Feed start: `feedGanesha`
- [] Feed idle (L2): `feedIdleHint`
- [] Final celebration VO: `sceneComplete`
- [] No VO duplication on tab return/reload.

Scene 02 ? Pond (`PondSceneSimplifiedV4.jsx`)

12.02A ? Full Mechanics (exact flow)

- [] Opening modal CTA starts scene.
- [] Lotus stage uses hold-to-bloom progression for 3 lotuses.
- [] Releasing hold early decays progress safely (no hard fail).
- [] After all 3 bloom, Lotus SymbolAutoReveal appears.
- [] Golden lotus stage: tap golden bud to continue.
- [] Elephant stage: tap elephant to activate trunk/water-drop path stage.
- [] Drag water drop along petal stepping stones.
- [] Off-path drag: drop fades and resets (soft fail), progression not corrupted.
- [] Reaching final target triggers golden bloom and Trunk SymbolAutoReveal.
- [] Completion celebration and modal fire once.

12.02B ? SymbolAutoReveal Card Content + VO

- [] Lotus card content: `Lotus` / `I bloom in the mud!`
- [] Trunk card content: `Trunk` / `Strong and gentle!`
- [] Card fly-to-sidebar lands on correct icon.

12.02C ? VO Trigger Map (phase-by-phase)

- [] Opening: `opening`
- [] Lotus gameplay prompt: `lotusRound`
- [] Golden bud prompt: `goldenLotus`
- [] Elephant/trunk prompt: `elephant`
- [] Trunk drag prompt: `trunkRound`
- [] Idle lotus: `idleLotus`
- [] Idle golden: `idleGolden`
- [] Idle elephant: `idleElephant`
- [] Completion: `complete`
- [] No VO stacking on rapid interactions.

Scene 03 ? Symbol (`SymbolMountainSceneV3.jsx`)

12.03A ? Full Mechanics (exact flow)

- [] Opening modal CTA starts scene.
- [] Eyes phase: child taps eyes and completes telescope discovery game.
- [] Eyes completion triggers Eyes SymbolAutoReveal.
- [] Ears phase unlocks after Eyes reveal completion.
- [] Ears rhythm game: 3 rounds/notes progress to golden notes.

- [] Wrong rhythm attempts allow retry; progression remains safe.
- [] Ears completion triggers Ears SymbolAutoReveal.
- [] Tusk phase unlocks after Ears reveal completion.
- [] Tusk phase: tap active golden notes; tusk power increments to completion.
- [] Tusk completion triggers Tusk SymbolAutoReveal.
- [] Final celebration + completion modal trigger once.

12.03B ? SymbolAutoReveal Card Content + VO

- [] Eyes card: `Eyes` / `I notice the good.`
- [] Ears card: `Ears` / `I listen with care.`
- [] Tusk card: `Tusk` / `I finish what I start.`
- [] Card fly-to-sidebar lands on correct icon each time.

12.03C ? VO Trigger Map (phase-by-phase)

- [] Opening: `opening`
- [] Eyes phase prompt: `eyes`
- [] Ears phase prompt: `ears`
- [] Tusk phase prompt: `tusk`
- [] Idle eyes: `idleEyes`
- [] Idle ears: `idleEars`
- [] Idle tusk: `idleTusk`
- [] Completion: `complete`
- [] Ears success rotation lines behave correctly.
- [] Wrong attempt lines do not spam.

Scene 04 ? Sacred Assembly (`SacredAssemblySceneV8.jsx`)

12.04A ? Full Mechanics (exact flow)

- [] Opening modal CTA starts scene.
- [] Symbol queue contains 8 unique symbols and starts round 1.
- [] Card phase order per round is exact: `appear -> flipped -> side -> play -> feedback`.
- [] In `play`, only correct body zone accepts current symbol.
- [] Wrong zone tap: wrong feedback + recovery to idle, no accidental placement.
- [] Correct zone tap: placement locks zone + sparkle + next round increments.
- [] Already placed zones remain protected.
- [] Round 8 completion triggers final celebration chain and completion modal.

12.04B ? Card Content + Card VO + Hint VO

- [] Card text matches `SACRED\_SYMBOLS.associationText` for each symbol:
 - [] Eyes: `My big eyes help me see everything clearly.`
 - [] Ears: `My big ears listen to everything you say.`
 - [] Trunk: `My trunk is strong and helps me move things.`
 - [] Tusk: `My tusk helps me stay strong and brave.`
 - [] Modak: `My modak reminds me to share sweetness.`
 - [] Lotus: `My lotus helps me stay calm and peaceful.`
 - [] Belly: `My big belly holds lots of love inside.`
 - [] Mooshika: `My little friend helps guide me on my path.`
- [] Card VO map key validation:
 - [] `cardEyes`, `cardEars`, `cardTrunk`, `cardTusk`, `cardModak`, `cardLotus`, `cardBelly`, `cardMooshika`
- [] Hint VO map key validation:
 - [] `hintEyes`, `hintEars`, `hintTrunk`, `hintTusk`, `hintModak`, `hintLotus`, `hintBelly`, `hintMooshika`
- [] Round-1 onboarding line: `onboardingTapRightPart` plays once.

12.04C ? VO Trigger Map (phase-by-phase)

- [] Opening modal/entry: `openingModalPrompt`
- [] Card phase (`play` start): card VO for current symbol
- [] Idle escalation in play: symbol-specific hint VO
- [] Correct placement feedback rotates among:
 - [] `correctYes`

- [] `correctThatsRight`
- [] `correctYouFoundIt`
- [] `correctWellDone`
- [] Wrong placement feedback: `wrongTryAgain`
- [] Final chain in order:
 - [] `finalYouFoundAll`
 - [] `finalNowComplete`
 - [] `finalAlwaysWithYou`
- [] No duplicate VO after tab return or mid-round reload.
