

GANESHA MY BESTIE · APP FLOW

How each zone teaches, screen by screen

A stepwise breakdown of every live scene: the symbol at its heart, what the child physically does, and the inner value being taught. Covers the **3 active zones** — Symbol Mountain, Shloka River, About Me Hut — plus Festival Square, which is built but not yet turned on.

On screenshots: live in-app captures aren't included in this pass — the Parent Consent step (right after "Begin") is currently rendering off-canvas in the dev build, which blocks click-through before any zone loads. That's flagged as a separate fix. Everything below is drawn directly from each scene's source file, not from running the app.
